

Controller 1 (Chapter 3)
scene cues of the frame and of the tracked boxes
→ scene complexity index, three states
→ detector operating point every 10 frames
Evaluation: VisDrone2019-MOT, UAVDT;
ByteTrack and OATrack

Controller 2 (Chapter 4)
nested Otsu splits of recent score logits
→ clean or noisy mode, track continuation
→ candidates, scores and thresholds per frame
Evaluation: MOT17, KITTI, UAVDT;
seven published trackers
